ORDINANCE OF THE TOWNSHIP OF LAKEWOOD, COUNTY OF OCEAN, STATE OF NEW JERSEY, AMENDING AND SUPPLEMENTING CHAPTER XX ENTITLED "STREETS AND SIDEWALKS" OF THE REVISED GENERAL ORDINANCES OF THE TOWNSHIP OF LAKEWOOD.

BE IT ORDAINED by the Township Committee of the Township of Lakewood, County of Ocean, State of New Jersey, as follows:

SECTION 1. That Chapter XX entitled "Streets and Sidewalks" of the revised general ordinances of the Township of Lakewood be and hereby is amended and supplemented as follows:

~~20-1.6 Deposits—Road Restoration Fee. To insure trench or excavation restoration, a refundable cash deposit shall be deposited with the Township at the time the road opening permit is filed. The deposit shall be one thousand (\$1,000.00) dollars or twenty five (\$25.00) dollars per square yard, of the actual excavated trench size, whichever is greater. The amount of the deposit shall be computed by multiplying the trench length in feet by the trench width in feet, divided by nine (9), which produces square yards.~~

~~The deposits shall be refunded if the surface is replaced according to Township specifications, and will be forfeited in lieu of restoration in the event that the Township specifications are not met. For roads paved with Portland cement or with bituminous concrete the deposits shall be retained for a period of one (1) year from the date of completion of the permitted construction, at which time the deposit will be refunded upon the written approval of the Township Engineer. In the event the Township Engineer does not approve the same in writing, and upon recommendation to the Township Committee, the deposit will be forfeited. (1971 Code §15-1.6; Ord. No. 99-11 §6)~~

To insure complete restoration of the roadway, a non-refundable road restoration fee shall be provided to the Township at the time the road opening permit is filed. The fee shall be two-hundred-fifty (\$250.00) dollars or ten (\$10.00) dollars per square yard, of the proposed final paved trench size, whichever is greater. The amount of the deposit shall be computed by multiplying the final paved trench length in feet by the final paved trench width in feet, divided by nine (9), which produces square yards. No fractions of area will be used. The value shall be rounded up to the nearest square yard. Wherein the actual final paved trench size differs from the proposed final paved trench size by ten (10%) percent or more, the difference shall either be paid to the Township or refunded to the applicant. Where this fee is applicable, no temporary certificate of occupancy of certificate of occupancy shall be granted, unless said fee has been paid.
